

REM Zone 30ct Capsule

Sleep Supplement

Scientific Description

The **Ultimate Nutrition** Research team has developed a revolutionized formula to support individuals to get the sleep they long have been waiting for! **REM Zone** specifically contains key ingredients that aid in regulating your sleep cycle. **GABA**, which is a key ingredient in this product, is a neurotransmitter that has shown to play a significant role in **increasing REM sleep**.

This innovative product also contains melatonin, 5-HTP and L-Theanine. **Melatonin** is a highly researched supplement that **improves an individual's quality of sleep by up to 37%**. This supplement has even been shown to **improve morning alertness by up to 130%**. Meanwhile **5-HTC** has been shown to **significantly surge REM sleep** by almost 2 hours per night! Even an active ingredient, **L-Theanine**, which **increases relaxation** in about 40 minutes, helps to **boost the sleeping power of REM Zone!**

All these ingredients together in this ground-breaking formula help to optimize the amount of sleep that your body needs and deserves!

You train like a beast and eat like an animal, but how are you sleeping? Do you spend your nights fighting to get to sleep? Even have to resort to counting sheep? Ultimate Nutrition's team of researchers is here to deliver the premier sleep formula your body needs to make **GAINS!** **REM Zone** is *scientifically backed* and *precisely formulated* to make sleep the easiest part of your day.

What if one pill could improve the ease in which you fall asleep, and your alertness the following morning? **REM Zone's** formulation starts with the inclusion of L-Theanine. This amino acid has been proven to increase relaxation in 40 minutes, allowing you to start to wind down from the rigors of training or the stress of the day.¹

Have you taken a sleep product before? Was it ineffective or was it so effective that you couldn't shake the cobwebs the next morning? Melatonin, a proven sleep aid, has been shown in studies to improve quality of sleep by up to **37%** and improve morning alertness by up to **130%**.²

If you don't dream it, how can it become a reality? Simply put, you can't. **REM Zone** includes 5-HTP, a clinically-dosed ingredient that has been shown to increase REM sleep by ~2 hours per night. This is a up to a **53% increase** in REM sleep!³ With more time to dream, you will be better rested to reach your goals!

Training hard and eating right make up two thirds of the equation. You need sleep to let your muscles **GROW!** Ultimate Nutrition's **REM Zone** has been carefully formulated to help you make your dreams a reality. Grab a bottle today and make rest and recovery the easiest part of your day!

Warnings:
