

THE BEST TASTING BCAAs EVER, PERIOD.

The BCAA Advantage

The Problem: BCAAs make up over 50% of your skeletal muscle. Your body burns off most of the BCAAs you consume as energy when you work out. Any remaining BCAAs are then synthesized by your body to build muscle. Often, especially after a rigorous workout, there are not enough BCAAs remaining for you to maximize your muscle gains. Most proteins also only contain around 20% of BCAAs and many take a long time to fully absorb.

The Solution: Supplementing with Flavored BCAA 12,000 by Ultimate Nutrition during and after you work out. Each serving of Flavored BCAA 12,000 fuels your body with 6,000mg of USP grade, micronized, free form BCAAs (L-Leucine, L-Valine and L-Isoleucine), allowing you to maximize your muscle gains at the gym.

8 AMAZING FLAVORS!

Blue Raspberry

Fruit Punch

Grape

Lemonade

Orange

Pink Lemonade

Watermelon

6,000mg of
high-quality
100%
crystalline
U.S.P. BCAAs

2:1:1 ratio
of Leucine,
Isoleucine
and Valine

457 grams,
60 servings

Mixes easily and tastes absolutely delicious:
Mix one scoop (7.6 grams) with 6-8 ounces
of water or your favorite cold beverage.
For optimal use, take between meals,
and immediately after your workout.
