

AFTER GOLD

Recover FASTER, STRONGER, and LEANER

- 400% increase in immunoreactive Growth Hormone at rest
- 11.6% increase in IGF with clinically-dosed betaine
- 14% increase in TTE (time to exhaustion)
- Delays exercise induced fatigue

Today's athlete demands more from cutting-edge science and expects a post-workout to deliver faster, leaner, and stronger muscle repair. AFTER GOLD is what you need! Recent studies demonstrate clinically-dosed BCAAs reduce muscle damage, fatigue, and soreness associated with intense training. Choline was incorporated to decrease exercise-related fatigue and target body fat. A growth hormone complex of Betaine, GABA, and Glutamine has been included to kick-start recovery and reload for the next challenge. AFTER GOLD is an innovative product that's POTENT, PROVEN, and PRIMED for maximum recovery.
