Ultimate Nutrition's Gold Series Intra-Workout, Intra Gold, is the most comprehensive endurance product on the market, catering to athletes who demand more from their workouts and more from their bodies! The inclusion of L-Carnitine and L-Ornithine L-Aspartate initiates recovery before training ends by facilitating the removal of ammonia from the blood. Betaine's inclusion offers multiple benefits: increasing growth hormone levels, decreasing cortisol, and promoting vascular health. Intra Gold delivers an intra-workout that addressed the body's needs during any intense training session.
