

WHEY OATS & HONEY

Protein has a number of different roles in the body including repairing body cells, building and repairing muscles and bones, providing a source of energy, and controlling many of the important processes in the body related to metabolism. Whey protein is a high quality, complete protein, with all the essential amino acids. Whey protein is also the richest known source of naturally occurring branched chain amino acids (leucine, isoleucine and valine). These are important for active individuals, individuals who exercise, and professional athletes. Whey Oats & Honey provides 25 grams of protein per serving. Whole grain oats are complex carbohydrates that provide fuel for your muscles for hours due to the way your body processes this carbohydrate. Whole grain oats also contain beta-glucan, a specific type of fiber that has been shown to have beneficial effects on your cholesterol levels.

Available in 3lb, Vanilla Crème, Peanut Butter and Strawberry flavors, ALL NATURAL.
