

GLUTAPURE (L-GLUTAMINE USP)

Glutapure is the ultimate anti-catabolic preventing muscle wasting which lessens the degree of muscle damage and soreness. Glutapure helps the body to secrete its own growth hormone which trigger's the release of IGF-1 (Insulin Growth Factor 1). This hormone helps promote weight loss, increase lean body mass, and increase bone density. Glutapure neutralizes lactic acid burn in your muscles by releasing Plasma Bicarbonate allowing you to work out longer and stronger. Glutapure also increases your Nitrogen balance to help you stay in a positive balance for optimal muscle growth. Glutamine enhances the health of your immune system and play's a critical role in the health of the brain, lungs and liver. Each bottle contains 100% premium pure glutamine, produced using patented state-of-the-art Fermapure™ technology. This innovative fermentation process produces the highest quality, micronized L-Glutamine available in the world today.

Available in 400g, 1000g Powder & 1000mg, 300 Capsule Bottles.
