

LIQUID GLUTAMINE

L-Glutamine Supplement

Each one of these convenient single-serving bottles (3 fl oz or 90 ml) contains Ultimate Nutrition's exclusive liquid formulation for glutamine and is ideal for pounding immediately after exhaustive weight training. The depletion of glutamine during intense exercise is commonly associated with post-workout lactic acid burn and ensuing muscle soreness. Therefore, rapidly supplying fatigued muscles with a concentrated form of this amino acid supports glycogen synthesis, positive nitrogen balance, and facilitates recovery in time for the next monster session. At 40 calories and packed with 2,500 mg of premium USP L-glutamine, our liquid formulation has a refreshing fruit-punch taste.
