

Energy, focus and clarity reinforcement for serious gamers! Cheat Code™ is a complex nootropic formula designed for experts, but it will help the casual gamer, too.

Cheat Code™ is powered by a dual-stage energy-sustaining combination of Caffeine Anhydrous and Infinergy™ (Di-caffeine Malate). To sharpen focus, each capsule also contains Rhodiola Rosea (reduces mental fatigue), Alpha GPC (supports optimal cognitive function) and 5-HTP (elevates mood).

Huperzine A and Ginkgo Biloba boost memory quotient (storage space) and memory recall, respectively. These two ingredients pair synergistically with Bacopa Monieri to increase memory control.

To enhance visual acuity, we also included Zeaxanthin, a powerhouse ocular health ingredient shown to improve visual processing speeds and sensorimotor skills. Finally, Panax Ginseng keeps you cool when the pressure is on.

Available in 30-Tablet Bottles, and 5-tablet Sample Bottles
UPCs: 30-Tab 0 99071 00525 0, 5-Tab 0 99071 99525 4
