Power Caps

Do you need an energy boost for your harassed and stressed-filled day? Energy is sometimes hard to find in the busy housewife and mother, the stress-filled and result competitive athlete, the hard-working and stressed-out student and most other people trying to keep up with our fast paced and demanding modern life. The lack of energy and alertness can be frustrating. There can be many reasons for not having energy; poor diet, mental or physical stress and/or fatigue.

Power Caps by Ultimate Nutrition is a potent blend of concentrated natural herbs, and vitamins that supply an energizing burst of natural energy whenever you need it most. It is designed to complement the life style of today's active man or women. Power Caps is the perfect "pick me up" for people experiencing fatigue or lack of energy.

Power Caps by Ultimate Nutrition is a revolutionary new high performance energizer supplement designed to increase the energy for both your body and mind. Power Caps is designed to allow you to:

- Fight exhaustion
- Eliminate physical and mental fatigue
- Enhance mental alertness
- Energize your workouts
- Enjoy increased stamina throughout your day.

Power Caps utilizes an energy packed Power Blend, which contains essential herbs to fight physical and mental fatigue and enhance alertness. Included ingredients such as Ginseng and B vitamins give you more mental alertness, a better feeling of well-being, and greater energy. B vitamins are essential for converting fats, carbohydrates, and proteins into energy. B vitamins are co-factors in the creation of your body's ATP, or energy molecules.

Ginseng comes from a group of adaptogenic herbs from the Araliaceae plant family. It has been used as a tonic that induces well-being and balance in the body, having an effect on metabolism, motivation, and performance. Ginseng is a natural stimulant that will counter fatigue, improve cognitive function, and enhance athletic ability.

Herbs such as Mate and the antioxidant herb Green Tea are powerful body boosters that improve alertness and acuity, assist in the ability to concentrate, and amplifies energy. The unique catechins and flavanoids in green tea stimulate the body with increased responsiveness, cellular strength, and energy.

Tyrosine and Taurine improve mental alertness, increases reaction speed, and magnifies concentration ability. They are a ready source for the production of energy boosting

compounds. These compounds are involved in alertness, concentration and coping with pressure.

When consumed moderately, caffeine improves voluntary movements, contributes to mental quickness and shortens reaction-time. Caffeine supports the memory with regard to storage capacity thus facilitating the process of learning. Caffeine alone will only offer short term stimulation though. Power Caps was specially formulated provide an energy boost - the selected amino acids, vitamins and other ingredients have been combined to help combat fatigue, providing you with the energy to get the most out of your life.

FREQUENTLY ASKED QUESTIONS:

Can I take Power Caps with other caffeine containing products?

As Power Caps contains 77mg of caffeine per serving, it is suggested you limit the use of other caffeine containing products. Too much caffeine may cause nervousness, irritability, sleeplessness, and, occasionally, rapid heartbeat.

What is Mate?

Yerba Maté (*Ilex paraguariensis*) is a small tree native to the subtropical highlands of Brazil, Paraguay, Uruguay, and Argentina. The drink is brewed from the dried leaves and stemlets of this perennial tree. Mate is drank throughout the day to support the body, with 196 active compounds including vitamins, nutrients, minerals, proteins, fatty acids, chlorophyll, and the same proponents as green tea: flavonoids, polyphenols and trace minerals. Yerba Mate contains a natural stimulant, Mateine, a relative to caffeine but

without the jitters, sleeplessness or addiction that its relative has. It will stimulate the mind as well as the body.
