

25mg Cannabidiol • Exceptional Bioavailability! New Ultimate Nutrition® CBD Softgels

- Plant Based
- Contains Healthy Fatty Acids
- Simple and Effective
- Promotes overall health and wellness

Ultimate Nutrition's CBD Softgels have been formulated with the rigors of everyday life in mind. The research team at Ultimate Nutrition has selected the highest-quality cannabidiol, derived from the cannabis plant.

This innovative delivery method provides phytocannabinoids, including cannabidiol (25mg), and terpenes, including beta-caryophyllene and limonene, to be absorbed in a softgel capsule. The orally-taken softgel is designed to leave no aftertaste—for consumers who want the benefits of CBD oil, but dislike the texture or consistency of CBD liquids.

Cannabidiol has been shown in recent studies to have a positive benefit on overall health, relaxation, and well-being.^{1,2,3}

With cutting-edge science and an innovative delivery method, Ultimate Nutrition's formulation of CBD Softgels is at the front line of new-age health. If you are ready for the most bioavailable CBD Softgels, be sure pick up a bottle today!
