

PREMIUM INOSINE

Premium Inosine supports the body in production of short bursts of energy during intense, aerobic exercise. Importantly, inosine increases the body's ability to handle rigorous exercise without inducing fatigue. Inosine is the perfect training companion. It is a natural substance that can help increase the body's ability to carry oxygen, without affecting its uptake in the lungs, so it can work harder, stronger. When maximum stimulation is reached Inosine is converted into nutrients used by the body. Ultimate Nutrition's Premium Inosine Capsules guarantees the highest potency and maximal effectiveness in fulfilling your energy needs. Being of the highest quality, Premium Inosine not only provides a ready source of energy production but also supports faster muscle recovery and, simultaneously, helps the body to tone and remodel the muscle for enhanced performance.

Available in 100 capsule bottles.
