

ULTIMATE SENSATION BAR

Our protein bars are formulated to be a great source of several different proteins and other nutrients, all wrapped up in a quick and easy bar. It is easy to take them with you to work or school or anywhere that you need to get your protein or satisfy your hunger in a healthy way. And this sensational treat has 5g or less Net Carbs! Each 85-gram Ultimate Sensation Bar contains 30 grams of great tasting, high quality protein. The Ultimate Sensation Bar uses a special protein blend consisting of whey protein; in the form of whey protein isolate and whey protein concentrate, soy protein, and calcium caseinate. Calcium Caseinate is a high protein, high calcium nutrient derived from milk. Dairy calcium is shown to be more easily absorbed and utilized than supplemental forms of calcium. Research has shown dairy calcium helps regulate fat metabolism and promote the breakdown of fat. Studies show calcium from dairy sources achieves significantly better weight reduction than calcium supplements such as calcium carbonate. Increasing dairy calcium speeds up weight and fat loss.

Available in Chocolate Peanut Butter Caramel, and Chocolate Chip Cooke Dough Caramel, 85g bars.
