

Ultimate Nutrition NutriMeal

Ultimate Nutrition had one goal in mind when developing this product: to create a premiere nutritional supplement that would serve as a healthy addition to your everyday diet. The **Ultimate** Research Team did just that when formulating **NutriMeal**! An easily mixable and delicious beverage that provides the strength, energy and essential Vitamins/Minerals your body needs to achieve a healthy lifestyle.

A key ingredient in **NutriMeal** is Whey Protein Concentrate, which has numerous benefits including anti-microbial and anti-virus properties, immune-boosting elements, bone-health support, improvement of antioxidant capability, and improvement of physical activity¹. Whey Proteins are a rich source of branched chain amino acids (BCAAs) which are used as fuel and directly broken down by your muscle tissue during activity, which is why they are so important in your every-day diet¹. As if that wasn't enough in a great supplement, **Ultimate Nutrition** has added another powerful ingredient to **NutriMeal**, Bovine Colostrum. Recent evidence demonstrates that colostrum stimulates cellular growth and DNA synthesis which aid in enhancing lean muscle tissue². NutriMeal allows you to fuel your body for activity **AND** look good doing it!

No stone was left unturned in this tasty on-the-go supplement, which is why **NutriMeal** also comes packed with 20 essential vitamins and minerals, catering to your needs for **Ultimate** support. Each serving delivers 310 nutritious calories with a whopping 55 grams of protein, and only 5 grams of fat and 4 grams of sugar. **NutriMeal** is currently available in two classic varieties: Vanilla and Chocolate. **Ultimate Nutrition** realizes the daily demands for our athletes and fans that choose to live a healthy and active lifestyle. **NutriMeal** is here for your convenience, so that you can continue spending more time outdoors and doing what you love rather than in the kitchen. Supplement your daily diet with **NutriMeal** and reap the rewards!
