

GLUCOSAMINE CHONDROITIN MSM

**SUPPORTS JOINT
FLEXIBILITY
AND MOBILITY**

AVAILABLE SIZES

30 SERVINGS

**HPLC
TESTED &
CERTIFIED**

THE ULTIMATE JOINT & LIGAMENT SUPPORT

Ultimate Nutrition® Glucosamine Chondroitin with MSM is highly dosed to provide maximum joint flexibility and mobility support. Each triple-stacked serving contains 1,500mg of Glucosamine Sulfate, 1,200mg of Chondroitin Sulfate, and 1,200mg of MSM.

GLUCOSAMINE SULFATE vs. GLUCOSAMINE HYDROCHLORIDE (GHCL)

We use Glucosamine Sulfate because it is the most clinically studied and proven form available, and it's backed by numerous studies highlighting its effectiveness to reduce pain and inflammation, while also increasing mobility.

Be aware of the competition that uses GHCL. Unlike Glucosamine Sulfate (found in Ultimate Nutrition®), GHCL lacks the sulfate component, which is necessary for the body to produce and maintain cartilage. GHCL is not currently supported by research.

HPLC TESTED & CERTIFIED

High-performance liquid chromatography (HPLC) is an advanced technique used for identifying, quantifying, and purifying the individual components of a mixture. Ultimate Nutrition® Glucosamine Chondroitin with MSM is HPLC tested to ensure you are getting a proven and tested high quality joint and ligament support product.

Supplement Facts

Serving Size: 3 Tablets
Servings per Container: 30

Amount per Serving	
Glucosamine Sulfate (as glucosamine sulfate potassium)	1,500 mg [†]
Chondroitin Sulfate (as chondroitin sulfate sodium)	1,200 mg [†]
MSM (methylsulfonylmethane)	1,200 mg [†]

[†]Daily Value not established

OTHER INGREDIENTS:
Dicalcium Phosphate, Stearic Acid, Croscarmellose Sodium, Titanium Dioxide, Hydroxypropyl Methylcellulose, Magnesium Stearate, Silicon Dioxide, Polyethylene Glycol, And Talc.
