

New REM Zone combines clinically-proven sleep aids with new amino-based ingredients for longer, deeper, more restful sleep zzzz

- May increase relaxation in 40 minutes • May increase REM sleep by up to 2 hours (53%)
- May improve quality of sleep by up to 37% • May improve morning alertness by up to 130%

REM Zone's breakthrough formula starts with L-Theanine. This amino acid has been proven to increase relaxation in 40 minutes. REM Zone contains other key ingredients that aid in regulating your sleep cycle. GABA, which is a key ingredient in this product, is a neurotransmitter that can play a significant role in increasing REM sleep.

REM Zone also contains melatonin, 5-HTP, and is allergen free. Melatonin is a highly-researched supplement that improves an individual's quality of sleep by up to 37%, and improves morning alertness by up to 130%. Meanwhile, 5-HTP has been shown to lengthen REM sleep by up to 2 hours, or a 53% increase, per night.

Training hard and eating right make up two thirds of the equation. You need sleep to let your muscles grow! Ultimate Nutrition's REM Zone has been carefully formulated to help you make your dreams a reality. Grab a bottle today and make rest and recovery the easiest part of your day!
